Dear Parents / Caregivers

Anaphylaxis Information

A number of students in Kindergarten are highly allergic to some or all nuts. They are at risk of an anaphylactic reaction; this is a severe and sudden allergic reaction. These reactions can be caused by contact with nuts through ingestion or touch and can be life threatening. The school has developed an emergency plan, in consultation with the students' parents, to cover any reactions that may occur.

We ask your assistance to support the school to minimise any chance that these students may come into contact with nuts. We ask you to not send peanut butter sandwiches, nuts or foods which include nuts to school. Please remind your child not to share food with other children.

The students with the allergic reactions are very aware that they cannot eat any food other than what is provided by their parents. As you may be aware the canteen now does not sell peanut butter or nutella sandwiches and this measure was put in place in 2005, for students with severe nut allergies at LCPS.

Thank you in advance for your assistance with this matter.
