SCHOOL ACTIVITIES AT POTTERY GREEN IN 2009

At various times during the school year specific grades or classes may walk to Pottery Green, in Lane Cove, for school activities. Pottery Green is approximately 500 metres from LCPS.

These activities may involve PD Health PE, Sport and HSIE topics as they emerge in the curriculum. The activities will probably be isolated in nature rather than on-going.

This permission note will allow students to be involved in such activities without an individual permission note on each occasion. Naturally, appropriate teacher supervision will be in place for the activities and walking.

Please be assured that this note does not suffice for activities such as school athletics / cross country carnivals and swimming programs. Specific permission notes are essential on these occasions.

You are requested to complete the permission note below which will simplify planning and organisation.

If you require further information please see class teachers or grade coordinators.

R. Lamaro
